### Profile

I am a self taught craftsperson with eight years experience in textile screen printing. My specialist area is environmentally friendly printing, using a range of sustainable inks and substrates. I started my business from home before moving to Yorkshire Artspace in 2009. Over the past seven years I have grown from a small-scale printing and accessories business, to a professional fabric design and printing company, supplying fabrics to a variety of interiors and upholstery clients.

I sell my fabrics to fabric shops, interior designers , upholsterers and soft furnishing companies. I also sell directly to the public through my website.

### Experience
